Toshiba Strata CIX Phone System

Depending on the size of your business and/or property you will either be offered the Toshiba CIX 40 or CIX 100 system. Both are fully featured IP and Digital PBX systems offering the following features and benefits:

- **Cost-effective scalability** from 1 to 50+ stations using a mix of digital and IP stations.
- **Simplified network infrastructure** cuts costs by connecting IP phones over the LAN wiring system, seamlessly extending features to multiple sites through IP connectivity and streamlining network management.
- **Browser-based management** simplifies installations, and provides an intuitive, wizards-based method of managing the network from any Web-enabled workstation.
- **Full range of applications** available to extend your solution, including built-in Uniform Call Distribution (UCD) and traffic reporting, messaging solutions, Automatic Call Distribution (ACD), call routing and recording, Interactive Voice Response (IVR), Computer Telephony Integration (CTI) and networking.
- **Unparalleled telephony features** - with the most complete telephony feature offering for small sites, no business has to make compromises on how to process critical customer calls.
